Subject- Motivation Letter for Scholarship Approval

Dear Sir/Madam,

I'm Charlie Chain currently studying in senior secondary high school at the ABC school. I'm writing this motivation letter of scholarship to enroll myself for the scholarship programme of Glocal International.

With my scholarship programme I seek to undertake my bachelor's education from Harvard University. I have a strong urge to take my education further, but due to fund constraints, I can't afford my education any further.

With my excellent cgpa in my entire academics, I have always been a bright student of the school. I have sharp endeavors for my future but without my education, I'm unable to get there.

I have read the eligibility criteria of the scholarship programme. With all due respect I'm fulfilling the entire eligibility criteria to be shortlisted for the scholarship. With all the ambitions and hope, I therefore end my motivation letter here. I believe my strong urge of having further education would surely be regarded by the council.

Thanks & Regards,

Charlie Chain
